## SAP INNOVATION CONSULTANTS

### About INTENSUM

Intensum is an independent European SAP consulting agency founded in 2005. We deliver business skills, project management and first-class SAP implementation competencies, focusing on the optimization of Treasury & Financial Supply Chain processes, Business Analytics and process improvement through innovative solutions. Our ambition is to align business and IT through a unique service offering combining senior SAP profiles and solid business expertise.

We are a certified SAP Service partner and SAP Value Added Reseller (VAR) for Belgium & Luxembourg.

Terhulpsesteenweg 180  
B-1170 Brussels

You will join our innovation department as a **SAP Innovation consultant** and will work on challenging projects for outperforming customers.

### Function description

You will be involved in missions where your technical skills and knowledge of the latest web technology and SAP development environments is required. Your job is to :

- Be able to translate customer requirements to a technical development plan/project
- Develop web-interfaces, user-interfaces & applications
- Be responsible for the technical integration scenarios on our projects
- Define & participate in technical testing cycles
- Continually develop SAP technical skills and cross-functional expertise
- Guide, coach and train the key users

### Your profile

You have at least 2 years experience in developing ABAP-OO, Web Dynpro ABAP or the SAP Gateway. Candidates with an equivalent experience in any of the SAP NetWeaver modules will also be taken into consideration.

You are an energetic person with good attention to detail, enjoying to work independently and in a team, ready to deal with technical, functional and people issues.

- Topics such as HTML5, web-services, ABAP-OO/WebDynpro ABAP, function modules and BAPI's have no secrets for you. You love mobile applications...
- You follow the latest trends in web-design & applications and are eager to learn more
- Functional experience in one or more SAP modules is a plus
- Proven ability to perform in a dynamic environment, where quality and flexibility are critical
- Ability to create and maintain contact and trust with the customer
- Ability to overcome internal barriers through drive, determination & empathy
- Resistance to challenging environments and demanding timeframes/deadlines
- Strong interpersonal skills showing great enthusiasm and social empathism
- You speak and write English fluently. good notions of French and/or Dutch are an asset
- Optional : you are willing to travel abroad ( Luxembourg, Belgium, France & Switzerland )

### Our offering

This position offers you the opportunity to become an expert in one or more state-of-the art technical solutions of SAP : HTML5 & SAP Gateway, WebDynpro or mobile apps.

Our company culture is rather challenging yet very down to earth and transparent, which is reflected in our motto : **we do SAP, we deliver and we are recognised**. You will have to focus, work together as a team, take the lead as from day one... But you will get a lot in return : an excellent remuneration package, operate cross-industry, meet inspiring people, exchange experience and knowledge on our renowned corporate events - where fun, adrenaline & excitement are only a few keywords, and so much more!

And last but not least, we do care about our people. Check our references, question your future co-workers and you'll get the point ! We work as a team, we deliver as a team and we have fun as a team, without compromising on individual objectives !
