- Payment approval & monitoring
- KPI's & statistics

### LIQUIDITY MANAGEMENT

- Mid-term Liquidity Forecast
- Actual Cash Flow Analysis
- Embedded Liquidity Planning & Variance Analysis

- + CENTRAL LAUNCHPAD / FIORI
- + SMART BUSINESS APPLICATIONS

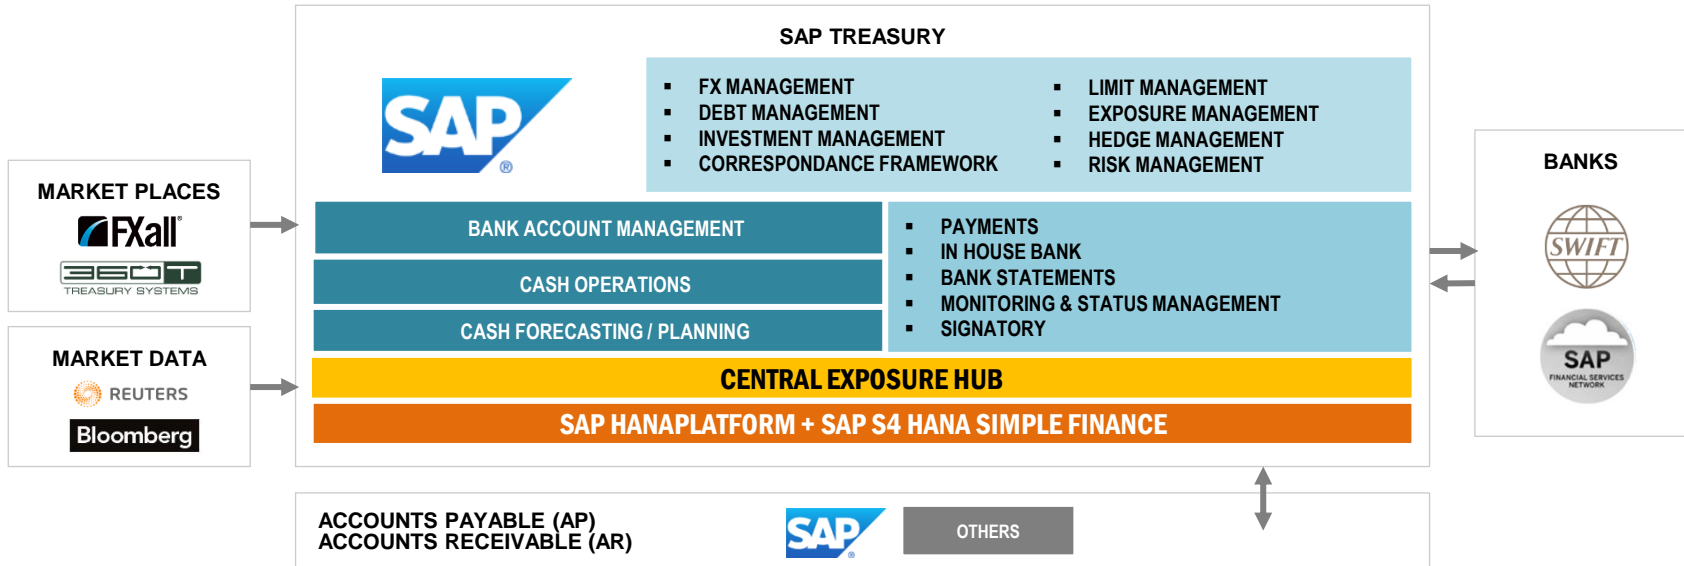

**FULLY INTEGRATED WITH TREASURY & RISK (TRM), BANK COMMUNICATION (BCM), IN HOUSE BANK (IHC) & FINANCE (FI)**

# SAP TREASURY

## SINGLE SOURCE OF TRUTH – ON EXPOSURE

- **Visibility** into global operations, cash and financial risk exposures is still a major challenge for Corporate Treasury.
- **Collecting and conforming** cash data & exposures from many sources and systems is difficult and time-consuming

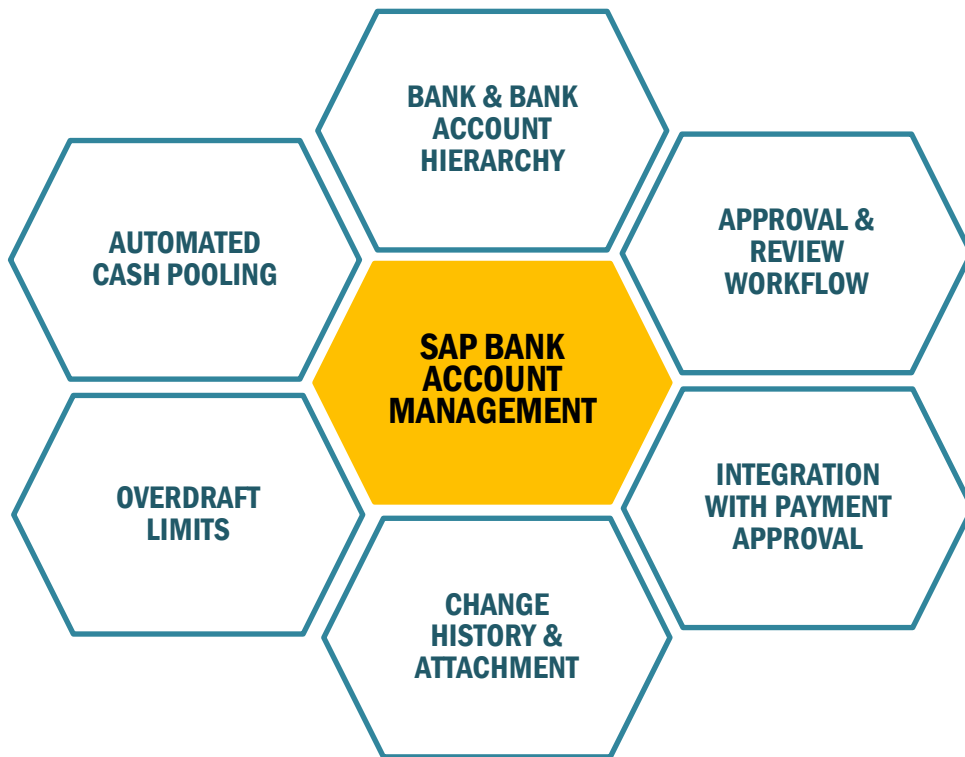

- Centralization and **Single Source of Truth** with “One Exposure”
- Designed to be the **central data storage location** for all operational data that is relevant for managing a company’s exposures and therefore aims to become the single source of truth for any financial risk.

### ACHIEVE GLOBAL VISIBILITY

- **Central Bank Account Management** is crucial to have a **global visibility** over all bank accounts within the group.
- Some of the key business drivers for a centralized BAM system are:
  - Better **control & visibility** of bank accounts
  - **Automated processes** for bank account maintenance using **workflows**
  - **Central repository** for all bank account documentation and contracts
  - Better management of **power of signatures**
  - Potential **reduction** of the number of bank accounts
  - Improved and uniformed **reporting** system on bank relationships
  - Enhancement of the external **audit review** process

# BANK ACCOUNT MANAGEMENT

## MAIN FEATURES

- **Group-wide and centralized** Bank Account Management
- **Approval process** using workflow for Bank Account Opening and Closing and for account sensitive attributes changes
- Payment **approval limits** and signatory rules
- Easy following of **change history & audit trail**
- **Overdraft Limits**
- **Cash Pooling hierarchies**
- **Attachment** of documents
- **Upload / download** functions

# BANK ACCOUNT MANAGEMENT

## APPROVAL WORKFLOW : OPEN NEW BANK ACCOUNT

### **REQUEST**

---

The Finance Manager of the subsidiary **request to open** a new bank account and specify the business reasons

### **APPROVE**

---

Group Cash Manager **review the request**, compare with existing accounts and **approve or reject** the request

### **ACCOUNT OPENING**

---

Bank relationship Manager negotiates with the bank on the contracts, gets the **account opened**, and **fills in all the necessary information** of the account

### **IT CONFIGURATION**

---

IT makes the necessary **configuration** to enable the bank account into **payment** and **bank statement** processes

## FOCUS ON OVERALL SOLVENCY

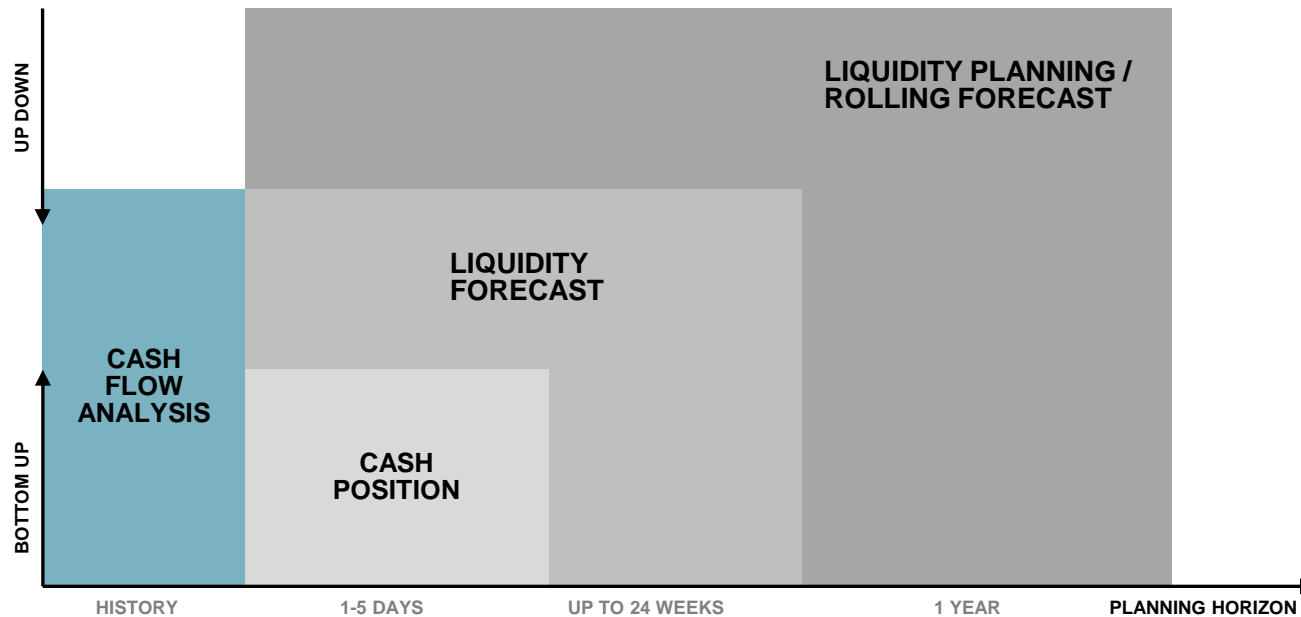

- Cash Managers and CFO's have increased their **focus on the overall solvency** of the company
- However, corporate organizations are facing multiple challenges in this exercise:
  - **Manual, time** consuming, non-standard processes and templates
  - Poor **data quality**, lack of **consistency** and **completeness**
  - Missing **system integration** (no **single point of truth** for all stakeholders)
  - How to ensure **accurate & reliable** cash flow forecasts ?
  - How to identify **cash flow drivers & early warning indicators** for improved decision making ?
- Three key dimensions
  - Establish a **Single Point of Truth**
  - Improve processes via **automation, standardization, simplification and consistency**
  - Provide **fast decision support tools** to enhance profitability and manage risk
- **SAP Cash Management powered by HANA provides a real-time integrated solution ...**
